<p>30 Chicken noodle casserole, green beans, oranges</p>	<p>31 Chili dogs, tator tots, oranges</p>	<p>Menu subject to change</p>		

Endnotes:

Must serve all five components for a reimbursable meal. Offer versus serve is an option for at-risk afterschool and adult participants.

Larger portion sizes than specified may need to be served to children 13 through 18 years old to meet their nutritional needs.

Must be unflavored whole milk for children age one. Must be unflavored low-fat (1 percent fat or less) or unflavored fat-free (skim) milk for children two through five years old. Must be unflavored or flavored fat-free (skim) or low-fat (1 percent fat or less) milk for children 6 years old and older and adults.

For adult participants, 6 ounces (weight) or $\frac{3}{4}$ cup (volume) of yogurt may be used to meet the equivalent of 8 ounces of fluid milk once per day when yogurt is not served as a meat alternate in the same meal.

A serving of fluid milk is optional for suppers served to adult participants. Alternate protein products must meet the requirements in Appendix A to Part 226 of this chapter.

Yogurt must contain no more than 23 grams of total sugars per 6 ounces. Pasteurized full-strength juice may only be used to meet the vegetable or fruit requirement at one meal, including snack, per day.

A vegetable may be used to meet the entire fruit requirement. When two vegetables are served at lunch or supper, two different kinds of vegetables must be served.

At least one serving per day, across all eating occasions, must be whole grain-rich. Grain-based desserts do not count towards the grains requirement. Refer to FNS guidance for additional information on crediting different types of grains.

Breakfast cereals must contain no more than 6 grams of sugar per dry ounce (no more than 21.2 grams sucrose and other sugars per 100 grams of dry cereal).
